CHINESE EVERGREEN (Aglaonema Modestum)

The most satisfactory of all plants for indoor growing

2½ inch pots \$1.75 per 12, \$12.00 per 100

PLANTS AND BULBS

Wholesale Price List
FALL 1934

The GOOD & REESE Co.

Florists and Nurserymen

SPRINGFIELD, OHIO

Important Notice

As a protection to our customers who are entitled to Wholesale or Florists' prices, we ask that they do not lend this catalogue to retail buyers. Offers in this catalog are extended only to those engaged in the trade. We reserve the right to refuse to fill orders for those not entitled to these prices.

Terms

Five per cent discount for cash with order. Two per cent ten days. All bills due net 30 days. Purchasers desiring to open an account will please furnish trade references. No claims recognized unless made within 5 days of receipt of goods.

C. O. D. shipments must be accompanied by 25 per cent of amount of order.

All prices quoted F. O. B. Springfield, Ohio. No packing charge.

All goods offered subject to prior sale.

All advance orders accepted subject to crop failure and other causes beyond our control. Should shortage occur, we reserve the right to fill the orders pro rata.

The Good & Reese Co. gives no warranty, expressed or implied, as to productiveness of any plants, bulbs, or seeds. Should any prove to be untrue to name, we agree to replace those found untrue, but in no case will we be held accountable for more than the invoice price paid by the customer for the untrue stock.

No plant orders filled at these prices for less than 6 of a variety, except as noted. Less than 25 of a variety filled at dozen rates. 25 to 200 of a variety at hundred rates. Over 200 of a variety at thousand rates, where thousand rates are quoted.

Peonies in Bloom at The Good & Reese Co.

America's Finest Peonies

For over a quarter of a century we have specialized in the growing of Peonies, the most popular of the hardy perennials. At the present time, G. & R. Peony plantings cover fifty acres in our nurseries—the largest plantings of their kind in the world devoted exclusively to **root production**.

SIZE OF ROOTS. At the prices quoted, 3 to 5 eye divisions with well balanced divisions will be supplied. Prices on undivided field clumps will be supplied on request.

Good & Reese Introductions

,New Introduction for 1934

MRS. WARD WELSH (Jap.)

At the time this variety was exhibited at the National Peony Show in 1927, it created a sensation. It was awarded the medal of the Garden Club of America as the "Best New Peony on Exhibition". Due to the fact that only several plants existed at that time, it was necessary to delay introduction until the present year. Mrs. Ward Welsh is considered by many Peony experts to be the last word in charm and beauty. Its large, snow white petals surround a center of golden yellow petaloids. The flower stems are strong and sturdy—in general effect, the plant is balanced and pleasing. It is our opinion that Mrs. Ward Welsh is destined to be rated one of the world's finest peonies. **\$10.00 each.**

DR. J. H. NEELEY (1930)

In Dr. J. H. Neeley we are introducing a Peony that is now considered one of America's truly fine varieties. We are confident that this variety is destined to be ranked among the five finest. In bud form, the flowers are faint blush pink, upon full opening are pure white. The broad heavy guard petals are of an unusually waxy texture; the center petals are rounded and cup shaped. The stems are long and strong. The fragrance is very pleasing. In Dr. J. H. Neeley we believe perfection has almost been reached. **\$10.00.**

JUDGE SNOOK (1930)

A really glorious flower that is destined to be ranked among the world's finest. The flowers are extremely large and are of rose type. It flowers in midseason. The stems are long and strong, supporting enormous flowers of pure snow white, when fully opened. Upon first opening, the flowers are pale creamy flesh, fading to pure snow white. The odor is strong and pleasant. It is our belief that Judge Snook is undoubtedly one of the most magnificent Peonies ever originated. It is robust in growth and reliable in flowering. You will be growing Judge Snook eventually. **\$10.00.**

GOOD'S GEM (Jap.) (1930)

Peony experts who have seen this Peony for the past few years have proclaimed it the finest Japanese variety yet introduced. Good's Gem possesses to the ultimate degree those qualities most sought by hybridizers. A veritable giant in size of flower and plant, remarkable substance and striking coloring combine to make Good's Gem a masterpiece. The petals are snow white, the petaloids golden yellow. A very robust grower, dwarf in habit and reliable in flowering. **\$10.00.**

GOOD'S IDEAL (1930)

Semi-rose type; midseason. A remarkably beautiful Peony is the consensus of opinion regarding Good's Ideal. The flowers are large and are supported by strong stems. The guard petals are pale flesh and surround a collar of faint Havana brown. In general appearance, the flowers are creamy-white and are very striking. It is naturally a free and reliable bloomer. Good's Ideal is a plant of ideal habit, strong, upright and vigorous, with good stems. It is truly a sensational Peony. **\$10.00.**

MRS. JOHN M. GOOD (1929)

Experienced growers who have seen this beautiful variety have greatly admired its beauty and charm. A wonderful white peony of largest size, often averaging nine inches in diameter. The flowers are flat, many petalled and perfect in form. The large buds are conical in shape, and upon opening are purest snow-white, showing no stamens and without markings of any kind on entire flower. Three to four flowers are carried on each strong, stout stem, thus giving the plant a very balanced and pleasing appearance. Mrs. John M. Good is a peony of great beauty; it is undoubtedly one of the world's finest. Midseason. **\$10.00.**

DARLING O'MINE (1930)

Crown type; midseason. Commercial growers of Peonies invariably select this variety as the peak of perfection for cut flower plantings. Darling O'Mine possesses the essential factors required by critical growers—appealing color, good long stem and wonderful keeping quality. In general description, Darling O'Mine may be adequately described as an improved President Taft. The strong stiff stems support extremely large flowers of beautiful rose pink, blending to delicate lavender pink in the center. We believe this variety is destined to be one of the most popular ever introduced in America. For cutting it is ideal; for landscaping, it is superb; and for general usefulness, it is unsurpassed. **\$10.00.**

ANNE NIELSEN (1930)

Crown type; late. For delicate beauty and charm, Anne Nielsen is without an equal. It possesses the aesthetic refinement attained in such beautiful varieties as Venus and Mme. Emile Galle. The guard petals are very broad and pure snow white in color. The secondary petals are slightly smaller than the guards, and are delicately margined shell pink. Anne Nielsen has a pleasing rose fragrance. A truly remarkable Peony is the consensus of opinion regarding Anne Nielsen. **\$10.00.**

MRS. J. H. PERKINS (1930)

A crown type flower of large size that flowers in midseason. The broad, shell-shaped guards of pearly white enclose a zone of creamy white interspersed with pale yellow petaloids. The broad center petals are pale flesh white. The stems are long and strong. The fragrance is strong and pleasing. In total effect, Mrs. J. H. Perkins is a magnificent "triple-decker", a Peony greatly admired by those acquainted with it. **\$10.00.**

SWAN WHITE (Single) (1930)

A beautiful dwarf single Peony that is among the first to flower. For landscaping we believe Swan White is unsurpassed by any single variety with which we are acquainted. A double row of wide snow-white petals surround a disc of golden-yellow stamens. The flowers are supported by stiff stems. Swan White remains in flower in better shape and for a longer time than any other single. A row of this variety on the lawn is a beautiful display. **\$5.00.**

FRANK E. GOOD (1929)

We confidently believe Frank E. Good is destined to become one of America's truly fine peonies. It possesses an almost unknown color shade that is distinctly different and rare. Those who admire the Havana Brown shade in such favorites as Solange and Tourangelle invariably go into ecstasy over this beautiful new variety. The long, strong, stems support large, perfectly formed flowers of pale flesh pink, the center of the flower being overlaid with delicate brownish salmon. In general effect the color is intermediate between Solange and Mme. Emile Galle. A pleasing fragrance, combined with vigorous growth, makes Frank E. Good one of the most beautiful and charming Peonies we have ever seen. Rose type, late. **\$10.00.**

Good & Reese Giant Hybrid Amaryllis

These reselected hybrids are gigantic in size and exquisite in colorings. The colors range from white with thin markings of carmine, various shades of pink, to deep scarlet. Some are pure in color, others have beautiful markings and mottled throats. **\$3.25 per 12, \$25.00 per 100.**

Good's White Giant Amaryllis

Only once in a decade is a really worthwhile new plant produced. In Good's White Giant, we believe we have a sensational new introduction that will become as popular as Lillium Giganteum when its merits become known. The flowers are enormous in size, often ten inches in diameter. In color, pure white without markings of any kind on the flowers. Frequently as many as six flowers are carried on a single stem. It is the most striking flower that can be grown. The stock is limited this year. **\$1.00 each, \$7.50 per 12, \$50.00 per 100.**

Alba Perfecta, Craigi (new red), Biencourt, Golden Queen, Jacob Schulz, La Pieur d'Or, M. Schmidt, Radiation, Southern (new pink and yellow), Tethys, and Weeping.			
Sansevierias All pot grown greenhouse plants. Much superior to the bare rooted plants usually offered. SANSEVIERIA ZEYLANICA —2¼ inch pots.....	\$0.85	\$6.00	\$50.00
SANSEVIERIA LAURENTI —3 inch pots.....	4.00	30.00	
SANSEVIERIA LAURENTI —4 inch pots.....	6.50	50.00	
SANSEVIERIA LAURENTI —5 inch pots.....	9.50	75.00	
Dish Ferns We offer the six best varieties for use in makeup and as individual plants. 2¼ inch pots.....	\$0.85	\$6.00	\$50.00

Rex Begonias

We offer the most highly colored varieties, 2 ½ inch pots, \$1.50 per 12; \$10.00 per 100; \$90.00 per 1000.

Primula Malacoides Erikssonii

The best new pot plant novelty introduced in years. 2¼ inch pots, \$1.00 per 12; \$7.50 per 100; \$70.00 per 1000.

Saintpaulia—The African Violet

We offer choice plants of this wonderful pot plant, 2 ½ inch pots, \$2.00 per 12; \$15.00 per 100.

Primula Obconica

The famous M and M. Strain. 2¼ inch pots, \$0.85 per 12; \$6.00 per 100; \$50.00 per 1000.

Hardy Perennial Plants

We are giving special attention to our Hardy Plant Department. Our stock is exceptionally large this year, one million plants being grown especially for the shipping trade. The majority of the perennials here offered are field-grown clumps.

Philodendron

Philodendron Cordatum

This climbing genus has been taken up by the florists' trade in a large way, since this plant adapts itself unusually well to the unnatural conditions of the average home better than most any other plant. A very large demand has ensued from the public. It is particularly suitable for sun parlor decoration, but does equally well in any part of the house, even in comparatively dark situations. Can be grown successfully in pots or hanging baskets, but seems particularly "happy" in wall pockets. Florists have found an unusually large demand for this valuable trailing vine and it can be merchandised with the assurance of giving utmost satisfaction with a minimum of care. It furnishes a beautiful "green atmosphere" and attracts no little attention. Try out this valuable plant in a merchandising way; we are sure you will follow with a repeat order in a short time.

GROUND COVER PLANTS

The use of Ground Cover Plants is becoming more important each year. The following five plants are undoubtedly the best to use where a close, compact covering is desired.

PACHYSANDRA TERMINALIS

The most widely used and popular plant for the purpose. It is hardy under all conditions, disease free and evergreen winter and summer.

2¼ inch pots, \$7.00 per 100; \$65.00 per 1000.

VINCA MINOR (Periwinkle or Myrtle)

The beautiful old-fashioned plant found in old lawns and in old cemeteries. Glossy evergreen foliage with blue flowers in spring.

Field grown clumps, \$6.00 per 100; \$55.00 per 1000.

EUONYMOUS RADICANS VARIEGATA

One of the best evergreen ground-covers. The leaves are small and oval in shape, dark green in color with white edges.

2¼ inch pots, \$8.00 per 100; \$75.00 per 1000.

EUONYMOUS RADICANS COLORATA

Being entirely evergreen, this plant is very attractive at all seasons. In winter, the foliage turns to a bronze red. This Euonymous is a very rapid grower, rooting at every joint, and this gives a uniform, even effect.

2¼ inch pots, \$10.00 per 100; \$85.00 per 1000.

ENGLISH IVY (Hedera Helix)

This ever useful plant is widely used as a ground cover.

2¼ inch pots, \$5.00 per 100; \$45.00 per 1000.

No plant orders filled at these prices for less than 6 of a variety, except as noted. Less than 25 of a variety filled at dozen rates. 25 to 200 of a variety at hundred rates. Over 200 of a variety at thousand rates, where thousand rates are quoted.

Rosa Rouletti

ROSA ROULETTI

The Miniature Rock Garden Rose

For many years this beautiful little rose was lost to cultivation. Several years ago a plant was found growing in an Alpine window-garden by M. Correvo, the famous Swiss Horticulturist. It is rapidly attaining popularity as a rock garden plant and as an edging subject. The plant grows about six to seven inches tall and blooms from early summer until heavy frost. The tiny rose-pink, quite double flowers are less than an inch in diameter.

2¼ inch pots, \$1.75 per 12; \$12.00 per 100.

Pedilanthus

PEDILANTHUS VARIEGATUS

The most beautiful narrow leaved foliage plant we have ever grown. When grown into finished plants, in 4 and 5 inch pots, it is in great demand. In the winter months the light green leaves produce a pinkish border. You will be growing this plant eventually.

2¼ inch pots, \$1.20 per 12; \$8.00 per 100.

GYPSOPHILA BRISTOL FAIRY

A Florists Moneymaker!

In Bristol Fairy we have a wonderful advance over all other types. The flowers are perfectly double, pure snow white and two to three times the size of *Gypsophila paniculata flore plena*. Bristol Fairy blooms early and continues to throw up flowers from the base, bearing fine sprays from June until killing frost. The dried flowers retain their pearly whiteness throughout the winter so that they can be depended upon to lighten the stiffness and formality of winter bouquets.

FOR DELIVERY FALL 1934

Field Grown Plants, \$3.50 per 12; \$25.00 per 100.

FOR DELIVERY FEBRUARY AND LATER

Strong Grafted Plants from 3-Inch Pots, \$2.50 per 12; \$17.50 per 100; \$150.00 per 1000.
